

NIRANKAR GANGWAR

React Native Developer | Full-Stack Mobile & Web

+91 6398120952 | balramgangwar72500@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

React Native Developer with hands-on experience building 3 production-ready cross-platform mobile applications for iOS and Android using React Native and Expo SDK. Proficient in full-stack development with Node.js, Express.js, MongoDB, and JWT-based authentication with RBAC. Skilled in Redux Toolkit, REST API design, Expo EAS Build, and Play Store/App Store deployment. Seeking a mobile or full-stack developer role to build scalable, high-performance applications.

TECHNICAL SKILLS

Mobile: React Native, Expo SDK 54, iOS, Android, Expo Router, React Navigation, Expo EAS Build

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Redux Toolkit, Context API, Zustand, Reanimated, React Native Gifted Charts

Backend: Node.js, Express.js, REST API Design, JWT Authentication, RBAC, bcrypt

Databases: MongoDB, Mongoose, MySQL, AsyncStorage

Tools: Git, GitHub, Postman, Figma, Firebase, Android Studio, Xcode, Push Notifications

Deployment: Play Store, App Store, Expo EAS Build, Offline-First Architecture

PROJECTS

KickStreet — Full-Stack MERN E-Commerce & Mobile App

June 2026

[GitHub Repo](#)

Tech: React Native, Expo SDK, Node.js, Express.js, MongoDB, JWT, React.js

- Built production-ready cross-platform sneaker e-commerce app (iOS & Android) with React.js admin panel and Node.js/Express.js REST API backend supporting 10+ product categories and full order lifecycle.
- Implemented JWT authentication with bcrypt password hashing and role-based access control (Admin/User) across mobile and web platforms.
- Developed RESTful APIs for product CRUD, order lifecycle management (COD checkout, stock validation, status tracking), and admin revenue analytics with bar chart visualization.
- Built admin dashboard with real-time inventory management, monthly revenue charts, and live order status updates.

VidyaSetu — Multi-Role Institute Management App

March 2026

[GitHub Repo](#) | [Download APK](#)

Tech: React Native, Expo, Node.js, Express.js, MongoDB, JWT

- Developed cross-platform mobile app for coaching institute management with 3 dedicated role modules (Admin, Teacher, Student) serving distinct workflows.
- Implemented JWT-based secure authentication with RBAC, ensuring role-specific access control and data isolation across all app modules.
- Built core features: attendance tracking, fee management, homework distribution, and student progress monitoring.
- Integrated real-time push notifications and email alerts for seamless communication across all 3 user roles.

Expense Tracker — Offline-First Personal Finance App

June 2026

[GitHub Repo](#) | [Download APK](#)

Tech: React Native, Expo SDK 54, TypeScript, AsyncStorage, Expo Router, Reanimated

- Developed full-featured offline-first personal finance app for iOS & Android with zero backend dependency using React Native & Expo SDK 54.
- Implemented local data persistence with AsyncStorage for expenses, budgets, and categories — fully functional without internet connection.
- Built analytics dashboard with monthly summaries, category breakdowns, budget utilization tracking, and interactive charts using React Native Gifted Charts.

EDUCATION

Bachelor of Computer Applications (BCA), MJPRU, Bareilly

2025 | Grade: A+

ADDITIONAL INFORMATION

Open Source: All 3 projects are open source on GitHub with live APK demos available for download.

Currently Learning: GraphQL, Docker, CI/CD pipelines, Unit Testing (Jest)

Languages: Hindi (Native), English (Professional Working Proficiency)
